Retail • E-Commerce • Business to Business • Professional Services
Telemarketing • Financial Institutions • Non-Profits • Property Management

PayTrace Professional:

PayTrace Professional is a highly scalable payment processing solution with numerous optional features that can be tailored to accommodate your most complicated payment processing needs. In addition, PayTrace Professional offers robust security, cost savings, and efficiencies which can't be found with other credit card processing solutions.

PayTrace Professional Options:

- Pre-Integrated Product Shopping Cart
- Pre-Integrated Payment/Donation Shopping Cart
- Application Program Interface (API) Allowing 3rd Party Software Integration
- E-Check/ACH Processing
- Gift Card Processing
- Automatic Recurring Payments
- Batch Upload
- Link Multiple PayTrace Accounts Together

PayTrace Basic:

PayTrace Basic offers streamlined credit card processing functionality for cost sensitive low transaction volume merchants who don't require the functionality associated with PayTrace Professional. PayTrace Basic offers the same simple credit card processing features as a credit card terminal with the added security and convenience of a database driven web-based application. In addition, PayTrace Basic offers a pre-integrated payment/donation shopping cart that can be used to accept payments/donations of a customer/donor determined amount over the web.

PayTrace Cash Advance:

PayTrace Cash Advance provides a simple and secure means for Financial Institutions to replace aging cash advanced equipment with modern technology to process cash disbursement transactions. What better way to become familiar with Pay Trace so you can accurately speak to its value with your business customers than to use it yourself? And, you'll benefit from the convenience of eliminating your old bulky cash advance equipment while replacing it with a solution that offers far more security. Please contact us for further information.

The secure advantage.
